Jas. Bennet, a Fireman on the D. & R. G., is Shot at San Antonio.

The Victim of a Mock Marriage Commits Suicide, at Atlanta, Ga.

Cuban Insurgents to be Pardoned because of the Coming "Infantia."

The Pope Gives His Assent for the Foundation of a Jesuitical Society in Africa.

Alamosa, Col., August 30.—James Bennet, fireman on engine 29, was shot and instantly killed at San Antonio station, on the D. & R. G. railroad at five o'clock this afternoon. Bennet at the time he was shot was standing on the engine, which was laying at the station, when a wagon drove up, containing besides the driver, James Catron, Capt. Spoor, Dave Rissler and Jas. Nichols, all under the influence of whiskey, and all commenced shooting promiscuously. It is said that at least thirty shots were fired, and one man had a ball through his hat before Bennet was shot. At the time of the shooting, four or five men were on the engine with young Bennet, and the circumstances of the shooting go to show that it was premeditated. Bennet was from Troy, N. Y., and had been on the road only about three months. He was of a quiet and unoffending disposition and generally beloved by all who knew him. Several of the party named as being concerned in the shooting, are recognized as desperate characters. No arrests have yet been made but the officers are in pursuit of the miscreants.

LATER. Spoor, Catron and Nichols have been captured and now are in jail at Conejas, and strongly guarded. It will not be surprising if all three are lynched before morning. The railroad men at San Antonio have organized for a protection, under R. E. Sloan and Ed. Hillson as captains.

Boston, August 30.—The American association for the advancement of science met in general session to-day. A number of new members were elected and Cincinnati was chosen as the next place of meeting. A committee to memorialize Congress and the state legislatures regarding the cultivation of timber recommended low protecting trees to be planted along the highways. A committee appointed at the last meeting to memorialize Congress to bring about co-operation between the general Government for a common and efficient system of the registration of deaths, births and marriages reported the interviews they had with members of Congress and especially with members of the committee of the Senate having charge of the matter pertaining to vital statistics and there is reason to believe if the matter is brought up early at the next session of Congress some action will be taken.

Chicago, August 30.—An Inter-Ocean's special says: The gold that is being sent to the mint from New York will probably not be coined for some time to any extent owing to the fact that there is so little demand for it. It is assayed and United States coin paid for it, but for the present most of it will be simply stored. Eventually all this foreign coin now arriving will be melted and recoined into eagles and half eagles. Now the amount that is being coined is greater than silver but the number of pieces is very much less. The Inter-Ocean has slight hopes that O'uray is not dead after all as it read no confirmation to-day. The supervising bill said that the unexpended balance, six or seven thousand dollars of the \$20,000 appropriated last session for the construction of additional silver vaults remaining after the erection of a vault in Philadelphia and a vault in San Francisco would be applied to the construction of a third at some other point perhaps New York.

Silver Cliff, Col., August 30.—John Mullin, a son-in-law of Wm. Perkins, more familiarly known as Moecassin Bill, was murdered last night by an unknown person. Mullin was married a week ago to the daughter of

Moecassin Bill, a beautiful and accomplished lady, and it is believed the murderer was a former rival.

Large quantities of wire gold are still being found in the Dirigo mine. Tests made of ore in which no gold was visible, to-day, gave 4,390 ounces of silver and 410 ounces of gold, making a coin value of \$13,204.60 per ton.

The city council awarded the contract for putting in water works to Russell Alexander & Co., of Chicago. London, August 30.—General Roberts in his message to Lord Horting-ton, says he arrived at Khleot Khilsia on the 23d inst., and that he had an abundance of supplies and could make the forage last to September 1st. He would rest on the 24th and start on the 25th and hoped to telegraph from Candahar by the 29th. General Roberts left Ghuzlee on the 16th, and had marched 146 miles in eight days. His march had been unopposed and he had obtained plenty of supplies and forage, consequently the cavalry and artillery horses were in good order during the march. One British soldier and two camp followers died; three soldiers and five followers were missing; it is feared that they were murdered.

London, August 30.—In the House of Lords this afternoon, Earl Granville, foreign secretary, said that the Powers are considering a rejoinder to the Portes note about Montenegro. In the meantime they have ordered a number of men of war to rendezvous at Rogusa. The Powers, he said, have informed the Portes of the decision of the Berlin conference on the Greek question, and also presented a note urging terms.

Chicago, August 30.—The construction force engaged on the extension of the Northern Pacific west of the Missouri river will complete grading to Yellow Stone early in October. The president of the road has directed the civil engineer to transfer the working force directly across to the located line of the Yellow Stone division, with the intention to reach and pass Miles City next July.

Denver, August 30.—Carrie Smith and Kelly Campbell waived examination and were held in bail this afternoon for complicity in the murder of Sol Newberger at a house of ill fame recently.

Fred Borthold, suspected to be the murderer of Jas. Askew is now in the county jail. He denies all knowledge of the fatal wound in Askew's face and declares he struck him a back handed blow with his bare hand which was covered with a flax seed poultice and loosely wrapped in a handkerchief.

C. C. Tamplehis ex-United States marshal arrived from the east with deputy marshal Cantrell and set about clearing his affairs.

Pottsville, Pa. August 30.—Thos. Scott and Mrs. Heesner walking on the Railroad track near Mont Carlon were killed by a fast express train to-day.

Madrid, August 30.—Floods have greatly damaged houses and lands in Guadalajara, Alhama, Catalajud, Almoraz, Granada, Torce, Quirena and Aleint. No loss of lives is reported.

Philadelphia, August 30.—The Republicans of the thirteenth district endorsed all the greenback nominees including Chas. N. Brumen for Congress.

Atlanta, Ga., August 30.—Mary Lau Campbell, a victim of mock marriage which caused her ruin suicided here to-day by taking 20 grains of morphine.

Rome, August 30.—The Pope has assented to the proposal that a portion of the French Jesuits should form a society for the propagation of the faith in Africa.

Philippolis, August 30.—It is declared in well informed circles that the announcement of the conclusion of an offensive and defensive alliance between Serbia and Bulgaria is unfounded.

Madrid, August 30.—On the occasion of the expected birth of an heir to the throne the government will grant amnesty to Cuban insurgent leaders now in prison in Spain.

Constantinople, August 30.—The European powers will not evade Turkey's participation in the proposed demonstration.

Long Branch, N. J. August 30.—Washington McLeans condition is improving.

Milton Terrell outraged his 14 year old daughter Saturday night. He is in the hands of the law and a preliminary trial will be held to-morrow.

Columbus, O. August 30.—An incendiary fire at Readerville destroyed the new hotel owned by the Ohio Coal Company. Insured.

From the L. Wer Pecos.

ROSWELL, N. M. August 27, 1880.

EDITOR GAZETTE.

I herewith enclose you for publication a copy of a petition from the citizens of the Pecos valley to the Postmaster General, of the U. S. mail route No. 39,114, from Ft. Davis, Texas to Ft. Stanton, N. M.

Knowing the zeal your paper has displayed in promoting the best interests of New Mexico, and that you always extend a helping hand to the people in their efforts to develop the resources of the territory, I am confident you will do what you can to bring this matter before the people, and to the attention of the government.

We are blessed with a country for which nature has done much. The hand of art is beginning to be felt, and in a few years, if we meet with no serious drawbacks, the valley of the lower Pecos will compare favorably with any other part of the west.

Within the past year our population has been doubled. Every class of immigrants are flocking into the country, and they will continue to come providing proper encouragement be given to them. Just when we are making such rapid strides in the march of progress, and our future seems assured, the cutting off of our mail facilities, a matter of serious import to us. Should this route be not again established, the people along the Pecos for a distance of 300 miles, will enjoy no mail advantages whatever. The cutting off of our mails is indeed a serious blow to our growth. People will not care to settle in a country where all communication with the outside world is denied them.

Again the discontinuance of this route is peculiarly unfortunate at this time. It is known that Victorio with his murderous Apaches has been endeavoring for the past three weeks to make his way into the Guadalupe mountains. It is now reliably reported that he has succeeded. With this strong hold as a basis of operations, it is an easy matter for him at any moment to attack our settlement. During the whole of the bloody war he has waged the troops have proved themselves worse than useless. Our people realize this fact, and look to their own strong arms for protection. This mail route running, they can keep posted as to Victorios whereabouts, and be prepared to meet any attack he may make.

I hope Mr. Editor you will give this matter some attention, for you cannot fail to see of what importance it is to the people of south eastern New Mexico.

To the Honorable Post-master General, Washington, D. C.:

We, your undersigned petitioners, citizens of Roswell and the Pecos Valley, would respectfully represent to your honor, that we suffer serious inconveniences and injury through the discontinuance of U. S. mail route No. 39,114, from Fort Davis, Texas, to Fort Stanton, New Mexico. That we the said citizens, of said valley, composing a large extent of territory, are afforded mail facilities by said route. No. 39,114 above, that owing to the discontinuance of said route, we enjoy no mail advantages whatever, to our serious hurt and detriment. That our country is now being rapidly settled and developed, and should we enjoy mail facilities, a serious check will be given our progress, and it may require years for us to recover, what we lose by the discontinuance of said route for a short time. That the mail for distribution alone said route now lies in the offices at Fort Davis and Ft. Stanton, and it is impossible that it reach its destination unless said route be re-established. That the Apache Indians of southwestern New Mexico and Arizona, under the leadership of Victorio, are now on the war path, and are liable to attack us at any time; that in the absence of telegraphic communication, we are forced to rely on our mail facilities alone for

information in regard to Indian incursions, thereby receiving information which would enable us to organize against a sudden attack.

Now, therefore, we your petitioners, would most respectfully and earnestly urge your honor to re-establish said route at as early a season as practicable. And your petitioners will ever pray &c., &c.

WATROUS, N. M., August 29th 1880.

ED. GAZETTE:

DEAR SIR:—Court is over in Mora and a portion of that Hon. body arrived here last night expecting to take the train to-day for Springer, but the interposition of Providence and the washouts caused them to change their plans, and go by the old reliable way, Buggy and Horses, we also had in our neighborhood Col. J. F. Chaves and the (Tranquil Moon) Tranquilino Luna. They left this morning for Cimarron, Colfax County, and I am afraid to waste their sweetness on the desert air. I rather like the appearance of the Republican Delegate to the 47th Congress, and no doubt he is a smart man. I expected he would give the citizens of this place a chance to judge of his power and eloquence but no such a favor was granted us. I suppose he will leave us and take us in on the home stretch, or he may think he has this place dead, but some times dead things crawl.

This is the fourth day and no mails yet, we are cut off from the world on both sides; the city of Las Vegas might take fire and be reduced to ashes and we would know nothing of it, cannot some arrangement be made so we could get our mails, washouts or no washouts. It is too bad to be deprived of our mails in this way. In the good old days of the stage line, if she missed a mail on account of bad roads, or high water, such a howl and wail went up, that the contractors were compelled to deliver it in 24 hours or stand a fine, and are the Railroad company any better than the stage line. I think not.

On the morning of the 26th I wrote you a long letter in regard to the last washout, which done a good deal of damage, but we have had no mails since and I did not send it for I suppose you have heard all about it by telegraph before this. Send up some papers by private conveyance and oblige.

Yours Truly,

S. H. WELLS.

—The last flood in the Pecos, has been the most severe of all. It ran through the streets of Fort Sumner and almost denuded the valley of crops, sweeping the fields bare. The river was higher at Anton Chico than ever before known. Don Lorenzo Labadie, lost his entire crop of wheat which was just ready for the harvest. Between the drought in the early part of the summer and the floods in the latter part, the crops in the Pecos valley will be slim.

WANTED.—A first class waiter at the Delmonico Restaurant. Good wages will be paid. 18-1f

WANTED.
